Q&A

What are your most popular products or services?

Our custom "boarding pass" invitations are popular with couples having destination weddings. Fun, unique and far from typical; people love receiving these invitations in the mail!

What tip would you give women who are starting a business?

Trust your instincts. And don't underestimate your time—things have a way of always taking longer than you think they will.

What is your motto or theme song?

Everything happens for a reason.

What place inspires you and why?

Europe. I love everything about it—the art, architecture, landscape, food, the people. I'm most inspired when I'm riding on a train somewhere in Europe.
